

Company Profile

Shenzhen Techlifehomes Technology Co., Ltd. is a high-tech enterprise specializing in the research and development, production and sales of mobile phone peripheral electronic accessories. Since its establishment, the company has continuously introduced advanced technologies and talents from home and abroad. All products are committed to meeting the four major needs of customers: "safety, convenience, fashion, and novelty", promoting, following and pursuing the new concept of "standard, quality and service", thus creating a new value and service concept in the field of Chinese electronic products. Our company has many years of development experience in the field of mobile phone accessories and electronic products. The customer groups are mainly foreign trade, e-commerce, and gift industries. Our concept is to create China's most fashionable and cutting-edge mobile phone electronic products.
